Option #2

Cushioned Interlocking Tiles

[MM100]

Especially for laundry rooms, pools, change facilities.

If you would like this as an Instructors teaching mat – we recommend a 3'x 5' OR 15 TILES to create a mat. This is an economical - industrial style mats. It will is 100% chlorine resistant. The cushioned tile that offers air-cushioned comfort and a non slip surface. Easy to assemble interlocking pieces. Ridges underneath allow for easy passage of electrical wires and telephone lines. We recommend that instructors wear shoes to teach with type of matting as it is not as cushioned as the Aqua mat. It is ¾ inch thickness, ¼ inch drainage openings.
