What is a Grab Bag Suit? It is a program where we offer you quality professional wear at a very affordable price. Basically, we stock a lot of products and programs and our inventory changes weekly. There are many sizes & colors of suits. With the grab bag program - You pick the size and we pick the color. However, if you have a preference - just email us or write it in the comments section as you check out.

Normally we have black and blue and we also have some exciting patterns. We can certainly look and see if we have your "style" or order whatever you prefer. Should you want something specific - just specify in the "comments" section when ordering (when checking out or email us at info@waterart.org).

Every suit is guaranteed to be a Speedo® Endurance suit with a bra. Speedo Endurance has created the longest lasting fabrics. The ENDURANCE range of swimwear features an exclusive chlorine resistant fabric that is 20 times more color resistant than conventional swimwear. These suits are designed to resist fading for long lasting wear. With proper rinsing and hang dry - they should last quite a few years(1 -2 years) .

This style will offer maximum coverage in the leg, neckline and back. A contemporary style. The built-in soft cup construction provides maximum support for large busts and extra shaping for smaller figures. Full beige front liner. Chlorine resistant. 100% polyester.
